

THE ORTHOPEDIC PARTNERS

AN RCM CLINIC

PARK CITY • HEBER CITY • SALT LAKE CITY

Cast Change Under Anesthesia: Your child is having their cast changed in the operating room.

1. This will be a short procedure, requiring sedation.
2. Your child will have their cast removed while asleep, their extremity washed, their wounds assessed and re-dressed.
3. A new cast will be applied. A leg/ankle brace (AFO) might be molded in the operating room.
4. Your child will be able to put weight on their leg following the cast change. Please use the cast shoe when he/she is walking and active.
5. Keep the cast clean and dry.
6. No pain medications should be required following the cast change.
7. We will see you in clinic in approximately 4 weeks to have the cast removed and start increasing activities!
